

AIM BIO-GREEN "THE SOLUTION"

Description:

AIM Bio-Green is "The Solution". The product is totally unique, and having being formulated solely from vegetable oils, is totally non-toxic, bio-degradable and contains zero V.O.C.S to aid in carbon reduction.

Characteristics:

AIM Bio-Green "The Solution" is a powerful cleaning solution that rapidly penetrates soils and contaminants, with its viscous nature assisting it to cling to the surface and not dry out – meaning it continues to penetrate long after it has been applied.

Usage Areas:

AIM Bio-Green "The Solution" may be used safely on all surfaces to remove ink, oil, grease, release agents, dirt, grime, and most other contaminants. This makes it ideal for cleaning equipment of all types including; Printing Presses, Engines, Transport Equipment, and Floors.

Approvals:

AIM Bio-Green "The Solution" is pending approval by;

- Man Roland
- Fogra
- KBA
- MacDermids

And, with its naturally occurring Anti-corrosives, will not attack or cause corrosion on metal or swelling on rubber surfaces.

The Safer Alternative

Application: AIM Bio-Green "The Solution" may be applied by spray, dip or wipe methods and will remain active on the surface without drying out. In the case of severe contamination, it may be necessary to agitate with a brush or scouring pad. Simply wash off with water.

AIM Bio-Green "The Solution" may also be applied by a variety of means, including:

- High pressure water blasters
- Steam cleaners
- Floor scrubbing machines
- Manual pump sprayers
- Low pressure pump packs
